slimline

PRODUCT DESCRIPTION

Sanitary bins are an essential feature in any washroom or bathroom environment for the hygienic disposal of non-flushable waste material. This robust automatic sensor operated sanitary bin is an attractive addition that matches with the rest of our range of products. Designed with narrow features to easily fit between the WC with the lid opening sideways for easy disposal. With 22 litres capacity and robust construction, this sanibin is ideal for high traffic areas.

FEATURES

- Robust, high impact, chemical resistant tough polypropylene body with a durable ABS Lid
- Infrared Sensor activated
- Slim and sleek design
- Simple robust lid mechanism with a clip on lid
- Sight cover to avoid sight of contents
- Takes 4x AA Batteries

BENEFITS

- Tough durable plastic body with tightly sealed lid - no odours
- Can be placed on either left or right side of wc
- Convenient automatic sensor operated lid - no touching for hygienic sanitary waste disposal
