★ Roll diameter	203mm maximum

PRODUCT DESCRIPTION

This unit is activated by infrared sensor for a fully automated touch-free, no-mess - no fuss experience. 4 D cell batteries operate up to 90 paper towelling rolls. This unit consistently dispenses equal paper portions, making it the ideal choice for moderate to high traffic environments.

FEATURES

- Tear bar cutting system
- Core diameter of 3.8cm
- Takes 4 D cell batteries
- Sheet length size - 279mm
- Weight - 3.63kg
- Lockable with a sensor activation and tear bar

BENEFITS

- Robust, high impact and chemical resistant
- No-Touch sensor preventing contact with dispenser
- Activated interval - one second interval to avoid waste
- Lock prevents theft of consumables
